**Inmarsat Fleet One**  
Flexible and affordable satellite voice and data services.

Global Marine Networks (GMN) Fleet One plans use the Inmarsat Mobile Satellite Network. Satellite reception limitations and some exclusion zones apply. Fleet One Leisure plans are only available to vessels solely engaged in pleasure yachting or inland waterway activities, and under 500GT. The vessels cannot be a floating platform or rig, and a Maritime Mobile Security Identity (MMSI) must be provided upon provision of service. All calls are charged in 60 second increments unless otherwise stated. Prices quoted exclude any applicable taxes and are subject to change. 12 month minimum term applies. You may choose to waive the minimum term when purchasing outright only by paying a \$50 contract waiver fee at the time the service is connected. Visit [www.globalmarinenet.com/fleetonecoverage](http://www.globalmarinenet.com/fleetonecoverage) to view a coverage map. A compatible Inmarsat Fleet One device is required to access the GMN Inmarsat Fleet One service (see device pricing). GMN may apply call barring where fraudulent use is suspected or for credit control purposes. You will receive a bill by email from GMN listing any payments you have made during the billing period and a summary of your service usage to enable you to keep track of your overall service usage and monthly spend. Itemized billed and unbilled service usage is available in the secure Selfcare website at [www.globalmarinenet.com/selfcare](http://www.globalmarinenet.com/selfcare). An itemized bill listing all of your service usage events is available on request. GMN plans are available to credit approved customers only. You may receive a pro-rata access fee charge on your first GMN bill, calculated from the actual date of service connection to the date of your first bill.
